Testimonial from one of our founders

Dr. Jeremy Ting

**Co-founder &
President
Naluri Life**

“Through the House of MedTech incubation program, we have been privileged and grateful to have forged a working relationship with an esteemed PI at the Luxembourg Institute of Health, to validate our digital solution in the context of diabetes prevention.

This now puts us on a path to secure CE Mark regulatory approval, accelerate our access to non-dilutive and smart capital, and firmly positions our European HQ for international scale.”
